MPI 2611 Wall Film

Designed specifically for wall graphic applications, MPI 2611 Wall Film is a matte white polymeric calendered vinyl film with superb dimensional stability after application, removability and excellent print quality.

Feature	Advantage	Benefit
Flexible matte finish	Low glare finish	Ideal for indoor graphics
Excellent printability	High quality printability across solvent, eco solvent and UV curable inkjet printers	One product for multiple platforms ensures product consistency and consolidated inventory
Thick face film construction	Thickness of film helps eliminate wrinkles and bubbles while providing added stability	Reducing application time and edge curl from solvent inkjet printers
12 months clean removability	Easily and quickly removable with heat	Removes easily with little or no adhesive residue resulting in reduced removal times
StaFlat™ liner	Excellent converting and handling properties	Increased productivity through installation and handling efficiencies
